

## TO PASS NEW ARMORY PLANS

Board Will Make Announcement Within a Week.

### MODERN \$85,000 BUILDING

NATIONAL GUARD HAS TAKEN NEW LEASE OF LIFE.

Plans for the new national guard armory have been practically passed upon by the committee having them in charge and within a week it is expected that the committee's recommendations will be sent to the armory board, consisting of Governor Cutler, Brigadier General Samuel C. Park, Adjutant General J. M. Bowman and Secretary of State C. S. Tingley, for final approval.

Not only this, but work on the splendid new structure should begin within a month, for the committee has in process of negotiation a centrally located site, which will probably be announced as soon as the architect's plans are officially passed on.

#### Description of New Armory.

In speaking of the plans for the new structure yesterday, a member of the committee said: "The new armory will have a basement and two floors and in addition a drill shed. The basement will be used for general storage purposes. Artillery and cavalry equipment will be kept here besides all government arms, etc. On the main floor will be located the offices of the commissary, quartermaster, the adjutant general, the brigadier general and the headquarters of the first infantry. "An up-to-date gymnasium will occupy part of the second floor. There will also be a lounge, reading and library room and three officers' rooms. The gym can be converted into a dance hall when desired.

#### Drill Shed a Feature.

"The drill shed will be a feature. All field maneuvers can be practiced here. The shed will be practically an inclosed yard, excepting for the spring floor, which will add to drill tactics. It will be steel-arched and probably roofed with glass. The walls will be exceptionally high. There will be hot and cold showers. "In addition to this there will be an emergency kitchen in the armory which will have a capacity for 200 men. "It is estimated that the total cost of armory and drill shed will be \$80,000. This money will be forthcoming whenever we need it. Besides the annual legislative bill recently passed providing an annual appropriation of \$10,000 for the armory, the committee has in mind the possibility of raising money by the sale of bonds.

#### Good Era for N. G. U.

The action of the sixth legislature in providing ways and means for the national guard of Utah to acquire a decent home has resulted in increasing the membership of the organization over 200 men. Besides the annual legislative appropriation the guard gets about \$6,000 per year from the federal government.

A year from now the members of the state organization will be housed in a structure that will compare favorably with any in the country. Every opportunity will be afforded them to reach the maximum in military knowledge.

#### Officers Organize.

An evidence of the renewed activity in national guard circles is the recent organization of an officers' association. The officers' aim in organizing is to make further study of military tactics. There is also, of course, the social feature. The organization is headed by the following: President, Brigadier General Samuel C. Park, vice president, Captain W. C. Webb, secretary and treasurer, Captain F. P. Bassett.

The first regular meeting of the officers' association will be held tomorrow night in the armory, when standing committees will be announced. The chairmen of these committees will form the executive committee.

## TO BEAR ENTIRE EXPENSE.

Colonel E. A. Wall Will Grade the Grounds of the Ladies' Literary Club.

Colonel E. A. Wall is to be the donor of the entire expense of fitting up and grading the grounds belonging to the Ladies' Literary Club on Third East street. The question of the immense expense consequent on the present grading has been a vexing one in the club since the present grade was established, all soil having been wrested with by the board of directors. The board met yesterday morning and formally accepted the offer of help, and the work will be commenced at once. The expense has not yet been estimated, but it was beyond the resources of the club with its present income, and the saving of the block would have been delayed had not the matter been taken up as it has been.

## DAVID EVANS WILL BUILD BIG HOTEL AS FEATURE OF THE 'VENICE OF AMERICA'

David Evans returned from California yesterday after completing arrangements for the erection of a \$250,000 hotel in the 'Venice of America' at Ocean Park, on the Pacific coast fourteen miles below Los Angeles. Associated with Mr. Evans in the enterprise is Robert Kinney of Los Angeles, each to build and own half of the stock. The building will be 100x175 feet in extent, fronting on the ocean. It will contain 400 rooms and will be five stories high. It will be constructed of concrete reinforced with iron. Mr. Evans is enthusiastic over his new enterprise. He says the hotel will be the best on the coast, fitted out with all modern conveniences. One of the new features will be hot and cold salt sea water baths throughout the building. It is expected the building will be completed by Jan. 1. The excavation is already made, and work on the superstructure will begin at once.

Many of the buildings and all the streets in the 'Venice of America' are under construction. The canals filled with the salt water from the ocean are used for streets, the gondolas float about the canals as in old Venice, and many of the buildings and decorations assist in carrying out the delusion.

## UTAHNS ON PROGRAM

A. C. Nelson and W. A. Wetzel to Participate in National Educational Association Meeting.

The names of State Superintendent of Public Instruction A. C. Nelson and William A. Wetzel are among those of westerners appearing in the official program-bulletin just sent out by the National Educational Association for its forty-fourth annual convention at New York, N. Y., July 2-7, 1905.

Superintendent Nelson is listed as state director and manager for Utah, which is a member of the western division of the association. Mr. Wetzel is president of the department of music education and is to deliver the initial address for this section the morning of July 5.

The various programmes shown in the bulletin represent every phase of education. They include carefully prepared papers and discussions by more than 200 men and women eminent in educational work and representing thirty-two states. A prominent feature of the convention will be President Roosevelt's address Friday afternoon, July 7. Another important feature will be the discussion of reports of three committees of investigation, viz., committee on salaries, teachers' pension, committee on taxation as related to public education, and committee on industrial education.

Special rates for tickets and stopover privileges have been guaranteed. The Western Passenger association will have tickets on sale June 28 to July 1, inclusive.
